SAKRETE®

Concrete Mortar Dissolver

Sakrete® Concrete Mortar Dissolver is a safe, environmentally-friendly liquid alternative to aggressive acid concrete removers. Concrete Mortar Dissolver can be used to remove cured cement, concrete, mortar or stucco from most surfaces.

SAFETY:

READ and UNDERSTAND the Material Safety Data Sheet (MSDS) before using this product. WARNING: Wear protective clothing and equipment. For emergency information, call CHEMTREC at 800-424-9300 or 703-527-3887 (outside USA). KEEP OUT OF REACH OF CHILDREN.

DIRECTIONS FOR USE:

IMPORTANT: Never wet surface before applying this product.

- Completely saturate area of hardened concrete to be removed with undiluted Concrete Mortar Dissolver. Surface will turn white on contact, then darken. (If Concrete Mortar Dissolver evaporates, a white residue will appear. DO NOT RINSE! Re-apply Concrete Mortar Dissolver to reactivate as needed until concrete has softened to a mush).
- Allow Concrete Mortar Dissolver to penetrate 10-15 minutes. Then re-apply to same area. Keep surface wet with Concrete Mortar Dissolver. Concrete will begin to soften and release from surface. (Total time approximately 20-30 minutes)
- Rinse with cold water with a garden hose and pressure nozzle, or use a high-pressure washer. On extra thick build up, repeat cleaning directions until build up has softened.

Multiple applications used in conjunction with mechanical means may be necessary for removing stubborn or thick built up areas.
